

OVER \$100 BILLION IS SPENT EVERY YEAR ON CYBER SECURITY. Yet attackers keep breaking in, stealing data or inflicting ransomware.

WHY?

Because attackers easily find missing or broken controls and exploit them.

As a Small and Medium-Sized Business (SMB), you are especially vulnerable.

You may not know which controls to implement, or how-to, and you have limited resources.

This is why Canada's CIO Strategy Council created **CAN/CIOS C104: National Standard Baseline Cyber Security Controls** for Small and Medium-Sized Organizations.

Per the National Standard, you should implement up to 55 controls.

INDUSTRY-LEADING

> RECENT HEADLINES

Small Business shuts down permanently, unable to resume operations from Ransomware. All employees laid off.

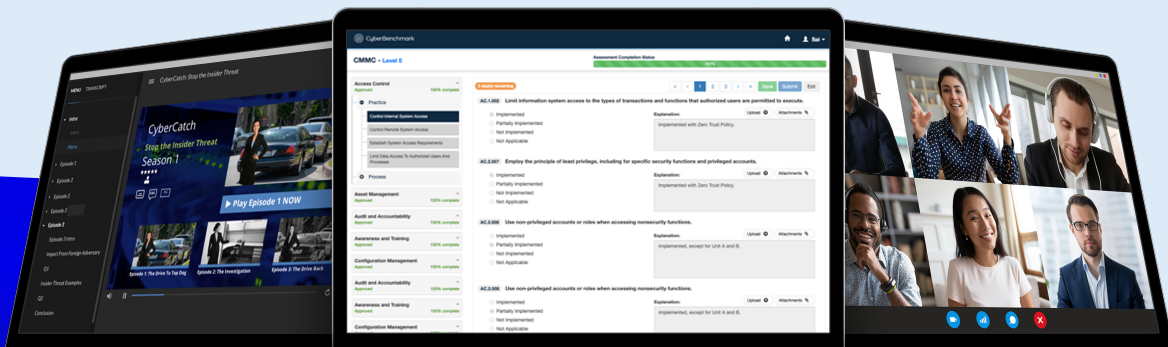

Defense Contractor Suffers Data Breach. Over 23 Gigabytes of Sensitive Data with National Security Impact Exfiltrated.

Law Firm Hit with Ransomware. Data and systems locked out. Copy of clients data exfiltrated. Clients include Fortune 500.

CONTINUOUS COMPLIANCE ASSESSMENT & CYBER HYGIENE SCORE

CyberCatch makes sure you implement all the necessary controls with a combination of technology, training and subject matter expertise, and then we monitor so you remain compliant.
