

TEST. FIX. SECURE.

CyberCatch is a unique cybersecurity Software-as-a-Service (SaaS) company that protects small and medium-sized businesses (SMBs) from cyberattacks by focusing on the root cause why SMBs fall victim: security holes.

It provides an innovative cloud-based SaaS platform coupled with deep subject matter expertise to help SMBs implement just the right type and amount of cybersecurity controls. The platform then performs automated testing of controls from three dimensions: outside-in, inside-out and social engineering.

It generates the Cyber Breach Score to continuously measure cyber risk, and finds security holes and guides the SMB to fix them promptly, so attackers can't exploit any missing or broken controls to break in and steal data or infect ransomware.

CyberCatch's continuous value proposition: Test. Fix. Secure.

BOARD OF DIRECTORS

KEY BIOS

SAI HUDA

FOUNDER, CHAIRMAN & CEO

Sai is the founder, chairman and CEO. He is a globally recognized risk and cybersecurity expert and the author of the best-selling book, "Next Level Cybersecurity" and a frequent keynote speaker at industry conferences. Sai was previously the founder and CEO of Compliance Coach, an innovative compliance risk management software as a service (SaaS) company, which was acquired by FIS, a Fortune 500 company and the largest FinTech company in the world. At FIS, Sai served as the GM of Risk, Information Security and Compliance and led the business to attain number one ranking in RiskTech100. Sai has led training programs for federal and state examiners covering Privacy, Information Security, GLBA, FTC Safeguards Rule, and Consumer Protection. He also led the inaugural training program for the Consumer Financial Protection Bureau (CFPB) examiners. Sai serves as a board member at the Cyber Center of Excellence (CCOE) and as an advisory board member at the CIO Strategy Council.

DR. MARV LANGSTON

DIRECTOR

Dr. Marv Langston is the former Deputy CIO at the U.S. Department of Defense (DoD) and Director of the Information Systems Office at DARPA. DARPA is an agency of the DoD responsible for the development of advanced and emerging technologies for use by the U.S. Military. Furthermore, Dr. Langston is a former CIO of the U.S. Navy. In that capacity, Dr. Langston served as the Navy's Senior Most Cybersecurity Official.

ADVISORY BOARD

TOM RIDGE

ADVISOR

Tom Ridge is Chairman and CEO of Ridge Global, LLC, an internationally recognized risk and cybersecurity advisory firm. He previously served as Special Assistant to U.S. President and as the first Secretary for Homeland Security following the September 11, 2001 terrorist attacks. Shortly afterwards, he created and served as the first Secretary of the U.S. Department of Homeland Security (DHS). The DHS is responsible for securing the U.S. from all threats, involving cybersecurity, border security, aviation safety, emergency response, among others. Tom combined 22 different agencies into a unified, integrated Cabinet level agency with the Secretary reporting directly to the U.S. President. The DHS comprises of more than 240,000 employees. Tom also previously served two terms as the Governor of the state of Pennsylvania.

KEVIN HACKETT

ADVISOR

Kevin Hackett is former Assistant Commissioner, Royal Canadian Mounted Police (RCMP). The RCMP is Canada's federal and national police. At the RCMP, Kevin held senior leadership responsibilities over the Criminal Operations unit. Kevin's policing background spans a distinguished career over 32 years involving leadership over high profile federal law enforcement investigations. He is regarded as one of the leading law enforcement experts in Canada. Kevin continues to go over and beyond the call of duty to serve the public and currently serves as the Deputy Police Chief of the Central Saanich Police Services in Canada.

EXECUTIVE TEAM

ANDY KIM

VP, CISO

Andy Kim is a globally recognized Chief Information Security Officer (CISO) and has been a business-focused cybersecurity expert for over 20 years. Most recently, Andy was the CISO for Allstate, a Fortune 500 company and one of the largest insurance companies globally. Prior to Allstate, Andy led cyber security teams across large organizations such as Citigroup (financial services sector), FIS (technology sector), and mid-size organizations. Andy holds multiple cybersecurity certifications such as CISA, CISSP, CISM, CGEIT and CDPSE, in addition to being a CMMC-AB approved RP.
