Compliance Manager

POWERED BY **CyberCatch**

Over $100 billion is spent every year on cyber security. Yet attackers keep breaking in, stealing data or inflicting ransomware. Why?

Because the defense is weak, so attackers easily exploit missing or ineffective cybersecurity controls and break in and steal data and install ransomware.

This is the root cause. This is why there are now new cybersecurity regulations and mandates for cybersecurity controls.

CyberCatch helps eliminate the root cause with continuous cybersecurity compliance and cyber risk mitigation.

▶ OUR MISSION

Deliver the most effective and affordable AI-enabled continuous cybersecurity compliance and cyber risk mitigation solution to the most vulnerable so they can be resilient, stay safe and continue to grow and be successful.

▶ KEY DIFFERENTIATOR
