

Cyber Insurance Program

Cyber criminals are increasingly targeting businesses through sophisticated and evolving tactics. The most prevalent methods are ransomware attacks, phishing schemes, and remote work setups, as more businesses continue to operate with distributed teams, leaving gaps in security protocols. As businesses adopt new technologies, the attack surface for cyber threats continues to expand, making cybersecurity a top priority.

Program

CMR has created the Cyber Insurance Program for companies that are CMMC Level 1 compliant. There is no application needed. We understand that businesses are facing increasing cyber threats, harsh regulations, and potentially significant financial risks. CMR's insurance specialists are here to support businesses of all sizes protect against cyber risks. With this program, clients receive a dedicated Cyber Incident Response Team to help navigate the claims process.

CMMC Compliance

CMR has partnered with CyberCatch® to assist companies in becoming CMMC Level 1 compliant. CyberCatch® helps you attain and maintain compliance, so your defense is strong at all times, and you do not become the next victim.
